Due to transfer to a different system, usage of following software on preliminary system will be shut down/stopped.

Sold-to/installation-number:	
former HOST ID* / Mac Adresse:	
former Composite ID (CID):	
former Host name:	
new HOST ID* / Mac Adresse:	
new Composite ID (CID):	
new Host name:	
Software Version:	

*-remarks

in case of usage of HW Keys / Dongles: 6 digits Host ID

in case of usage of an Ethernet-device based on Windows: 12 digits Host ID

in case of HP Unix: 8/12 digits Host ID

Herewith we confirm that – as a consequence to this license transfer to “new Host ID” – we shut down usage of all software mentioned above on the former system, specified with “former Host ID” at Siemens PLM Software. This includes all copies of the software or parts of it, independent from format, including all copies as well which have been implemented in further programs or material

There is an existing maintenance contract for that installation. Please send me a new license file for that changed Host ID / CID free of charge

No maintenance contract for that installation is existing

Please submit a proposal for a maintenance contract

Please submit a proposal for that license transfer mentioned above
